

Brief Introduction of CASACITY

CASACITY COMPANY LIMITED is a firm dedicated to excellence, passion, innovative ideas and firmness in Construction and Project Management in Ghana and the sub-region.

CASACITY also offers services in the areas of Sustainable Project Design, Planning and Engineering. We also partner with experienced professionals and firms both local and international in the delivery of projects. Our construction management setup is designed to see your project through from excavation to handing over with particular attention to detail and excellent craftsmanship. Our final products undergo a lot of reviews before issuance and implementation. We also monitor the performance of our creations after the post contract stage. CASACITY is registered with the Ministry of Works and Housing with D1K1 Classification with the capacity to execute any government project of more than \$500,000 in value.

We are also mindful of the environment and do employ sustainable, green construction methods in our projects with excellent craftsmanship and good project management skills. Health facilities design, construction and management.

Vision

To be the preferred and most valuable premium property development and management company in Ghana and beyond.

Mission

To deliver world-class residential and commercial properties and property management solutions by leveraging international best practices, strategic partnerships, excellence, and innovation.

CORE VALUES

Honesty and Integrity: We always do what is right, fair, and ethical. We share appropriate information in an honest and open manner.

Customer Satisfaction: We endeavor to exceed the expectations of our customers by anticipating, understanding and responding appropriately to their needs.
